“双碳”目标引领 一体化轻量技术赋能

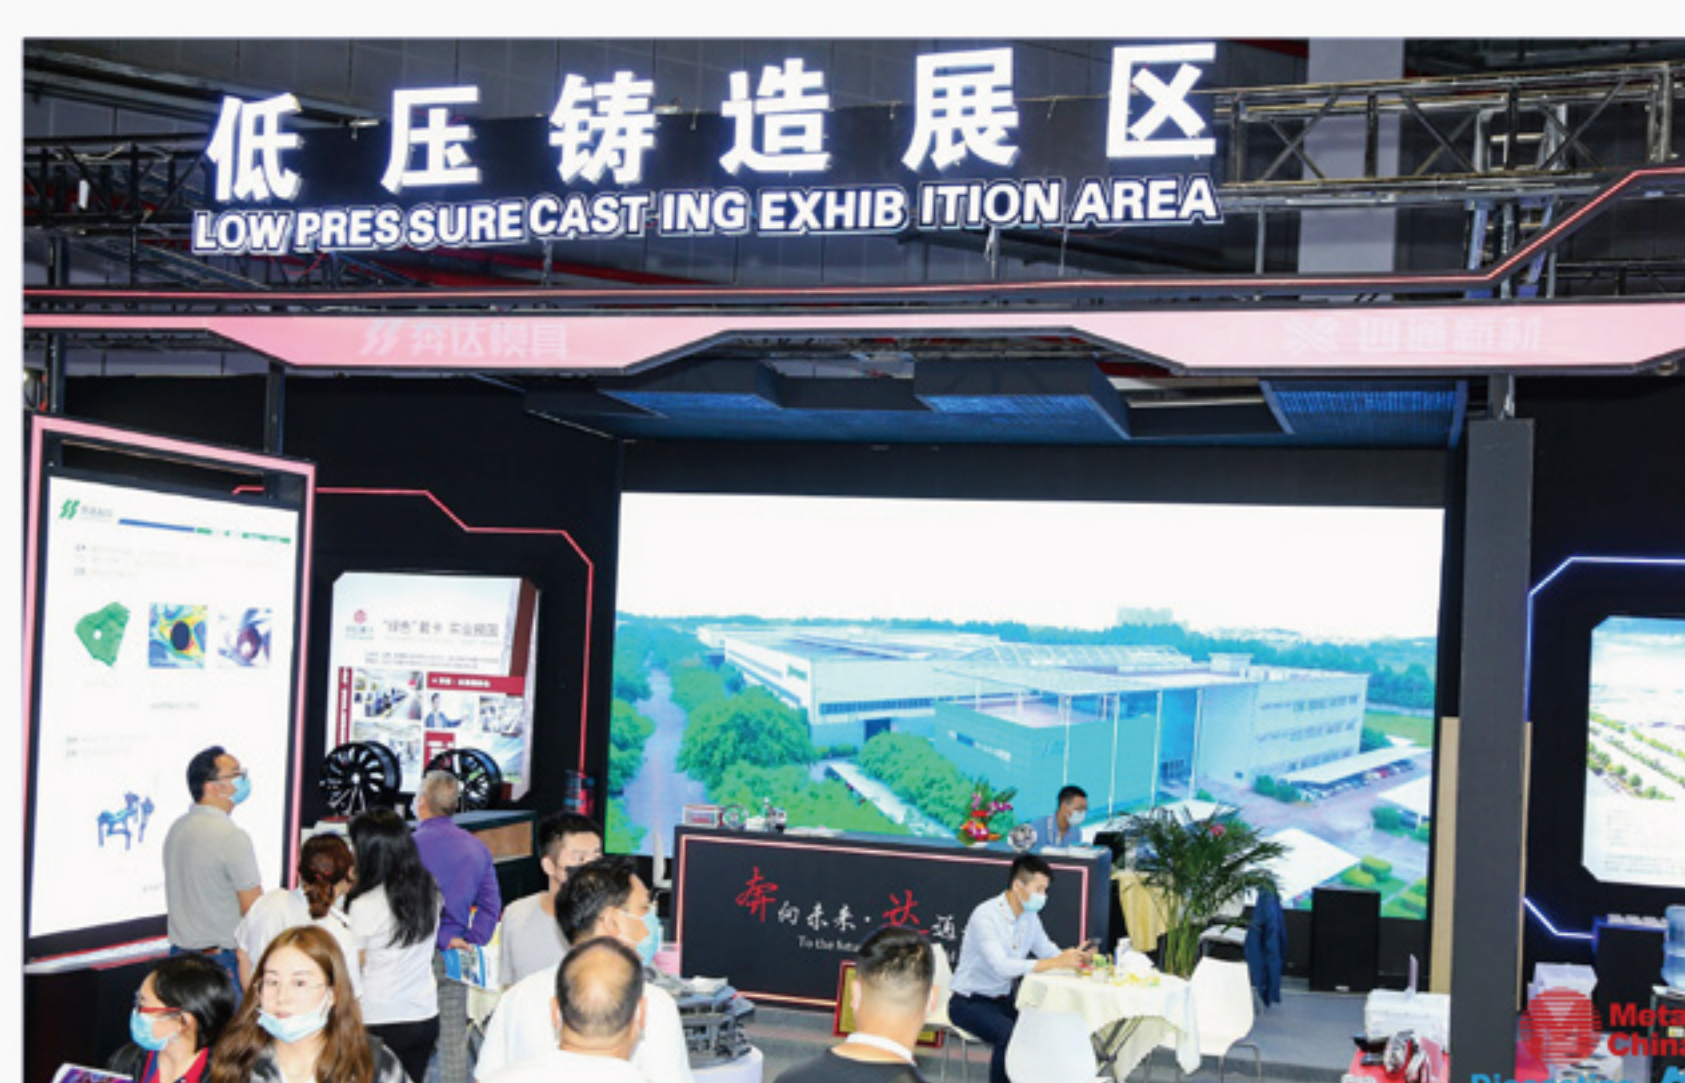

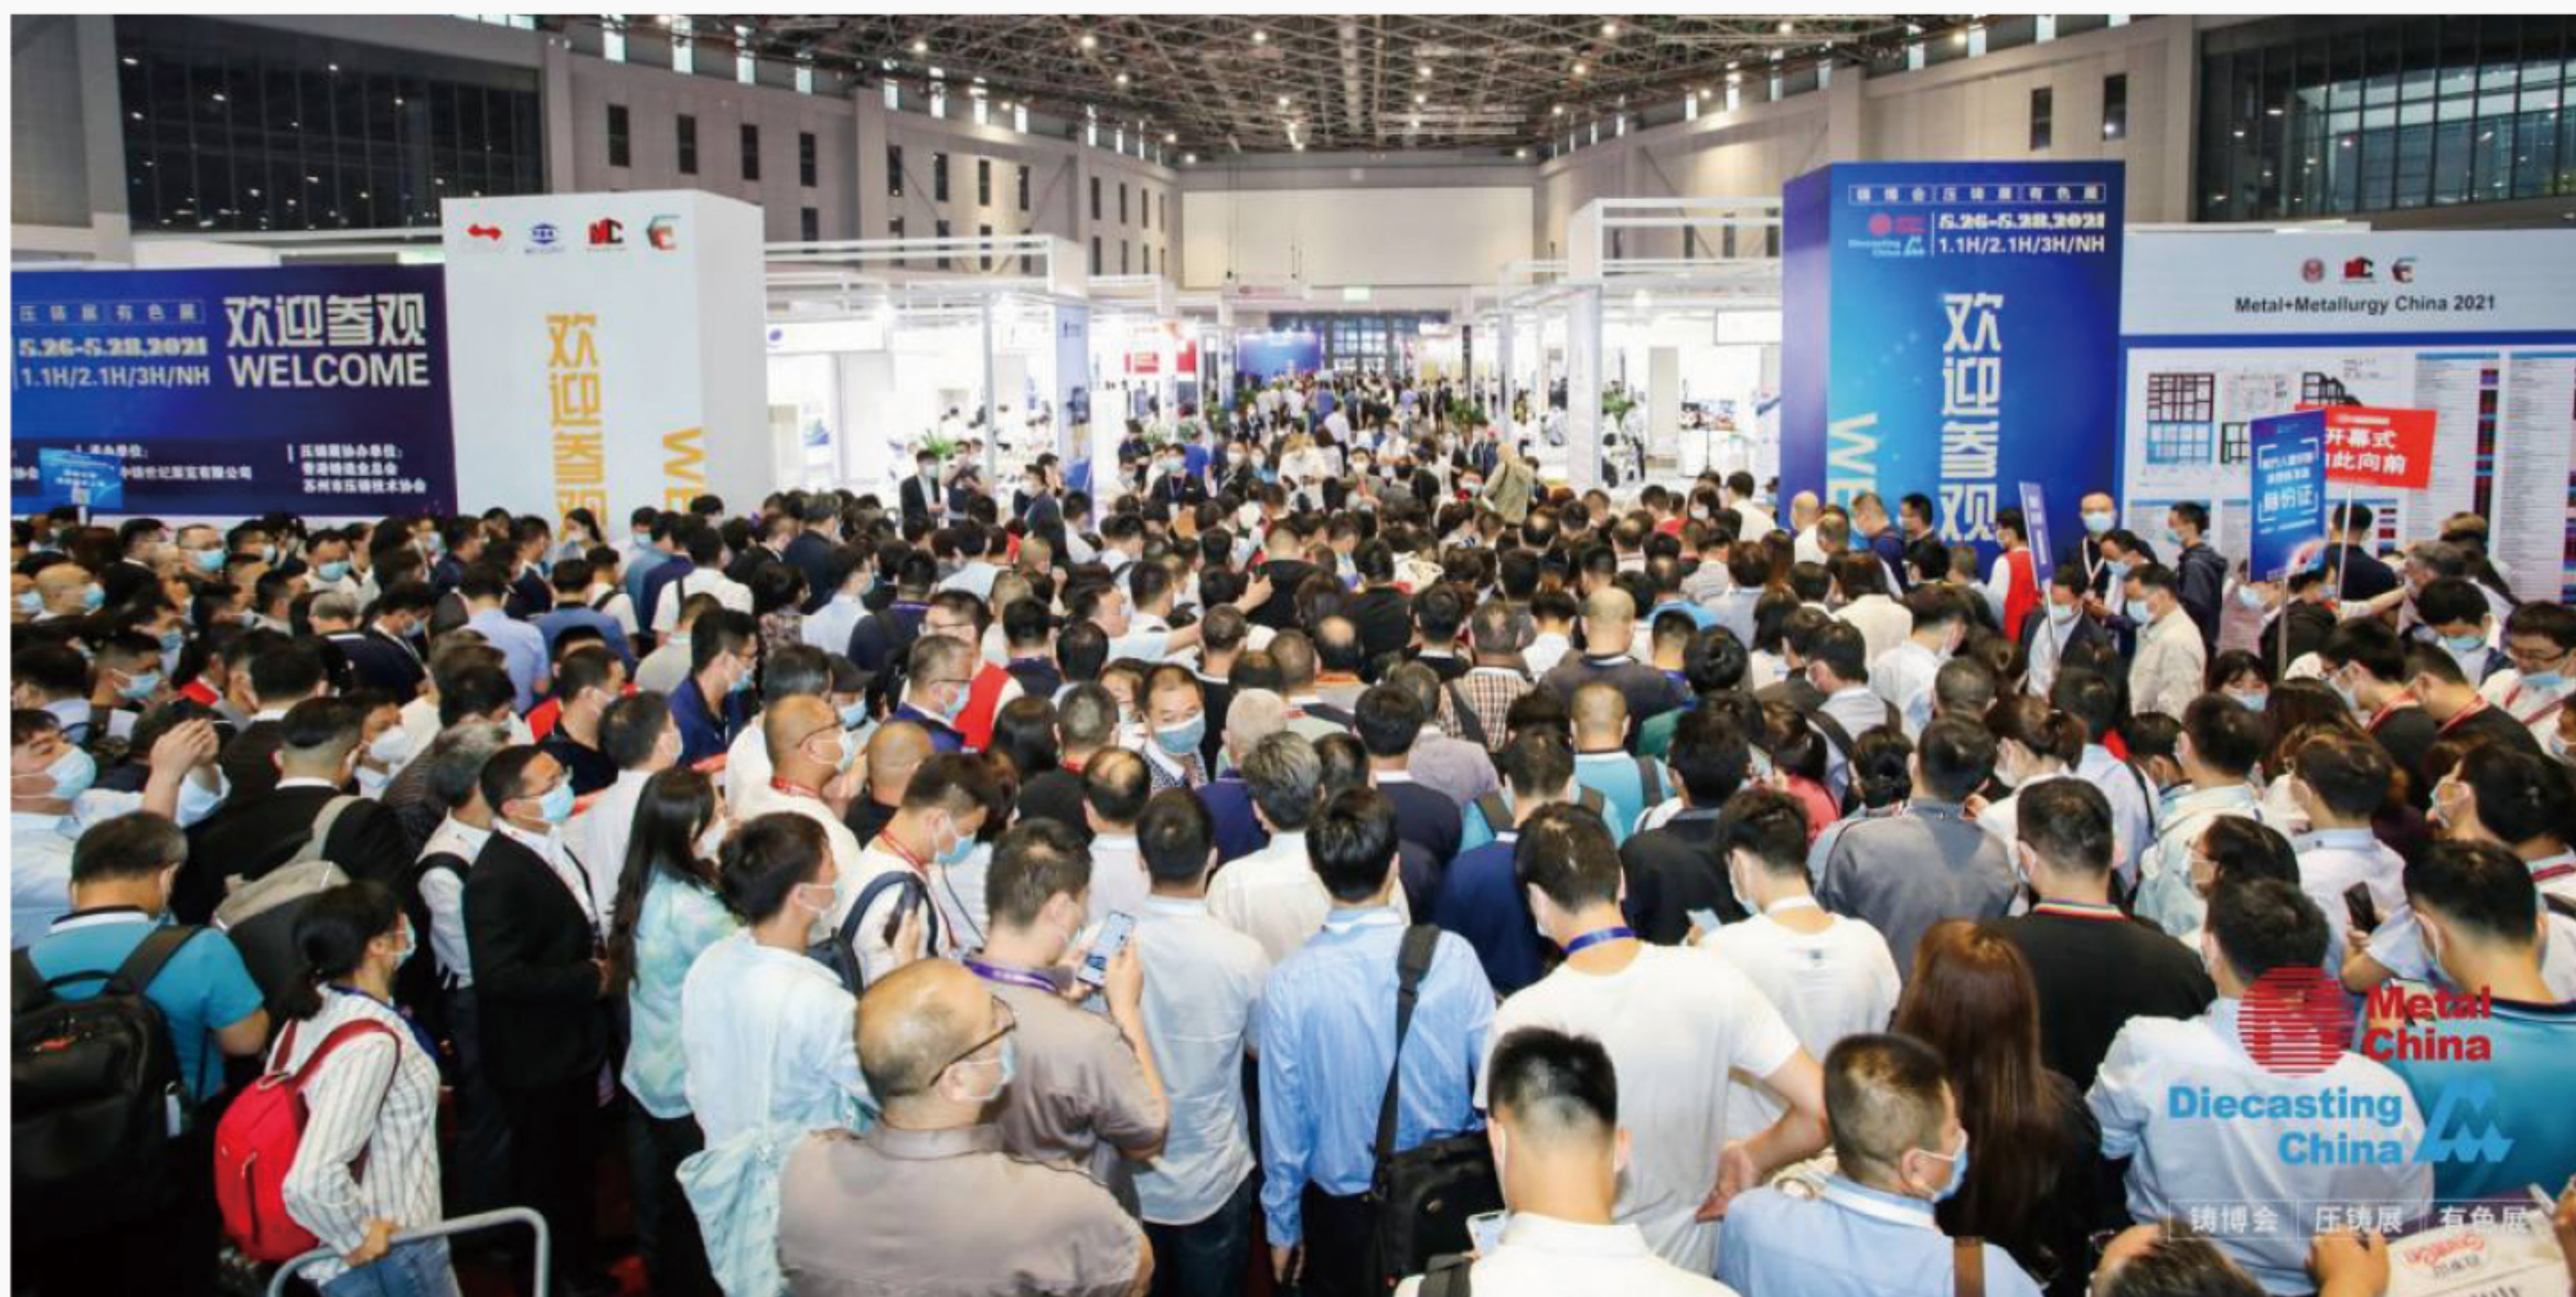

“中国国际压铸工业展览会”立足经典品牌展“国际有色及特种铸造展览会”，是由中国铸造协会携手苏州市压铸技术协会、香港铸造业总会合力打造的覆盖压铸及有色铸造全产业链的国际化展会。

以“双碳”目标为引领，随着新能源汽车的快速发展，一体化压铸已经迎来最好的时代，轻量化铸造已成为大势所趋。在此背景下，“第十七届中国国际压铸工业展览会”“第十七届国际有色及特种铸造展览会”与“第二十二届中国国际铸造博览会”同期举办，将汇聚海内外压铸及上下游杰出企业，全面展示压铸工艺、有色铸造及轻量化发展的新产品、新技术、新装备。展会聚焦前沿、关注热点、引领创新，旨在为高质量发展助力、为融入新时代赋能。

Empowering to Achieve Carbon Goal with Giga Diecasting and Lightweighting

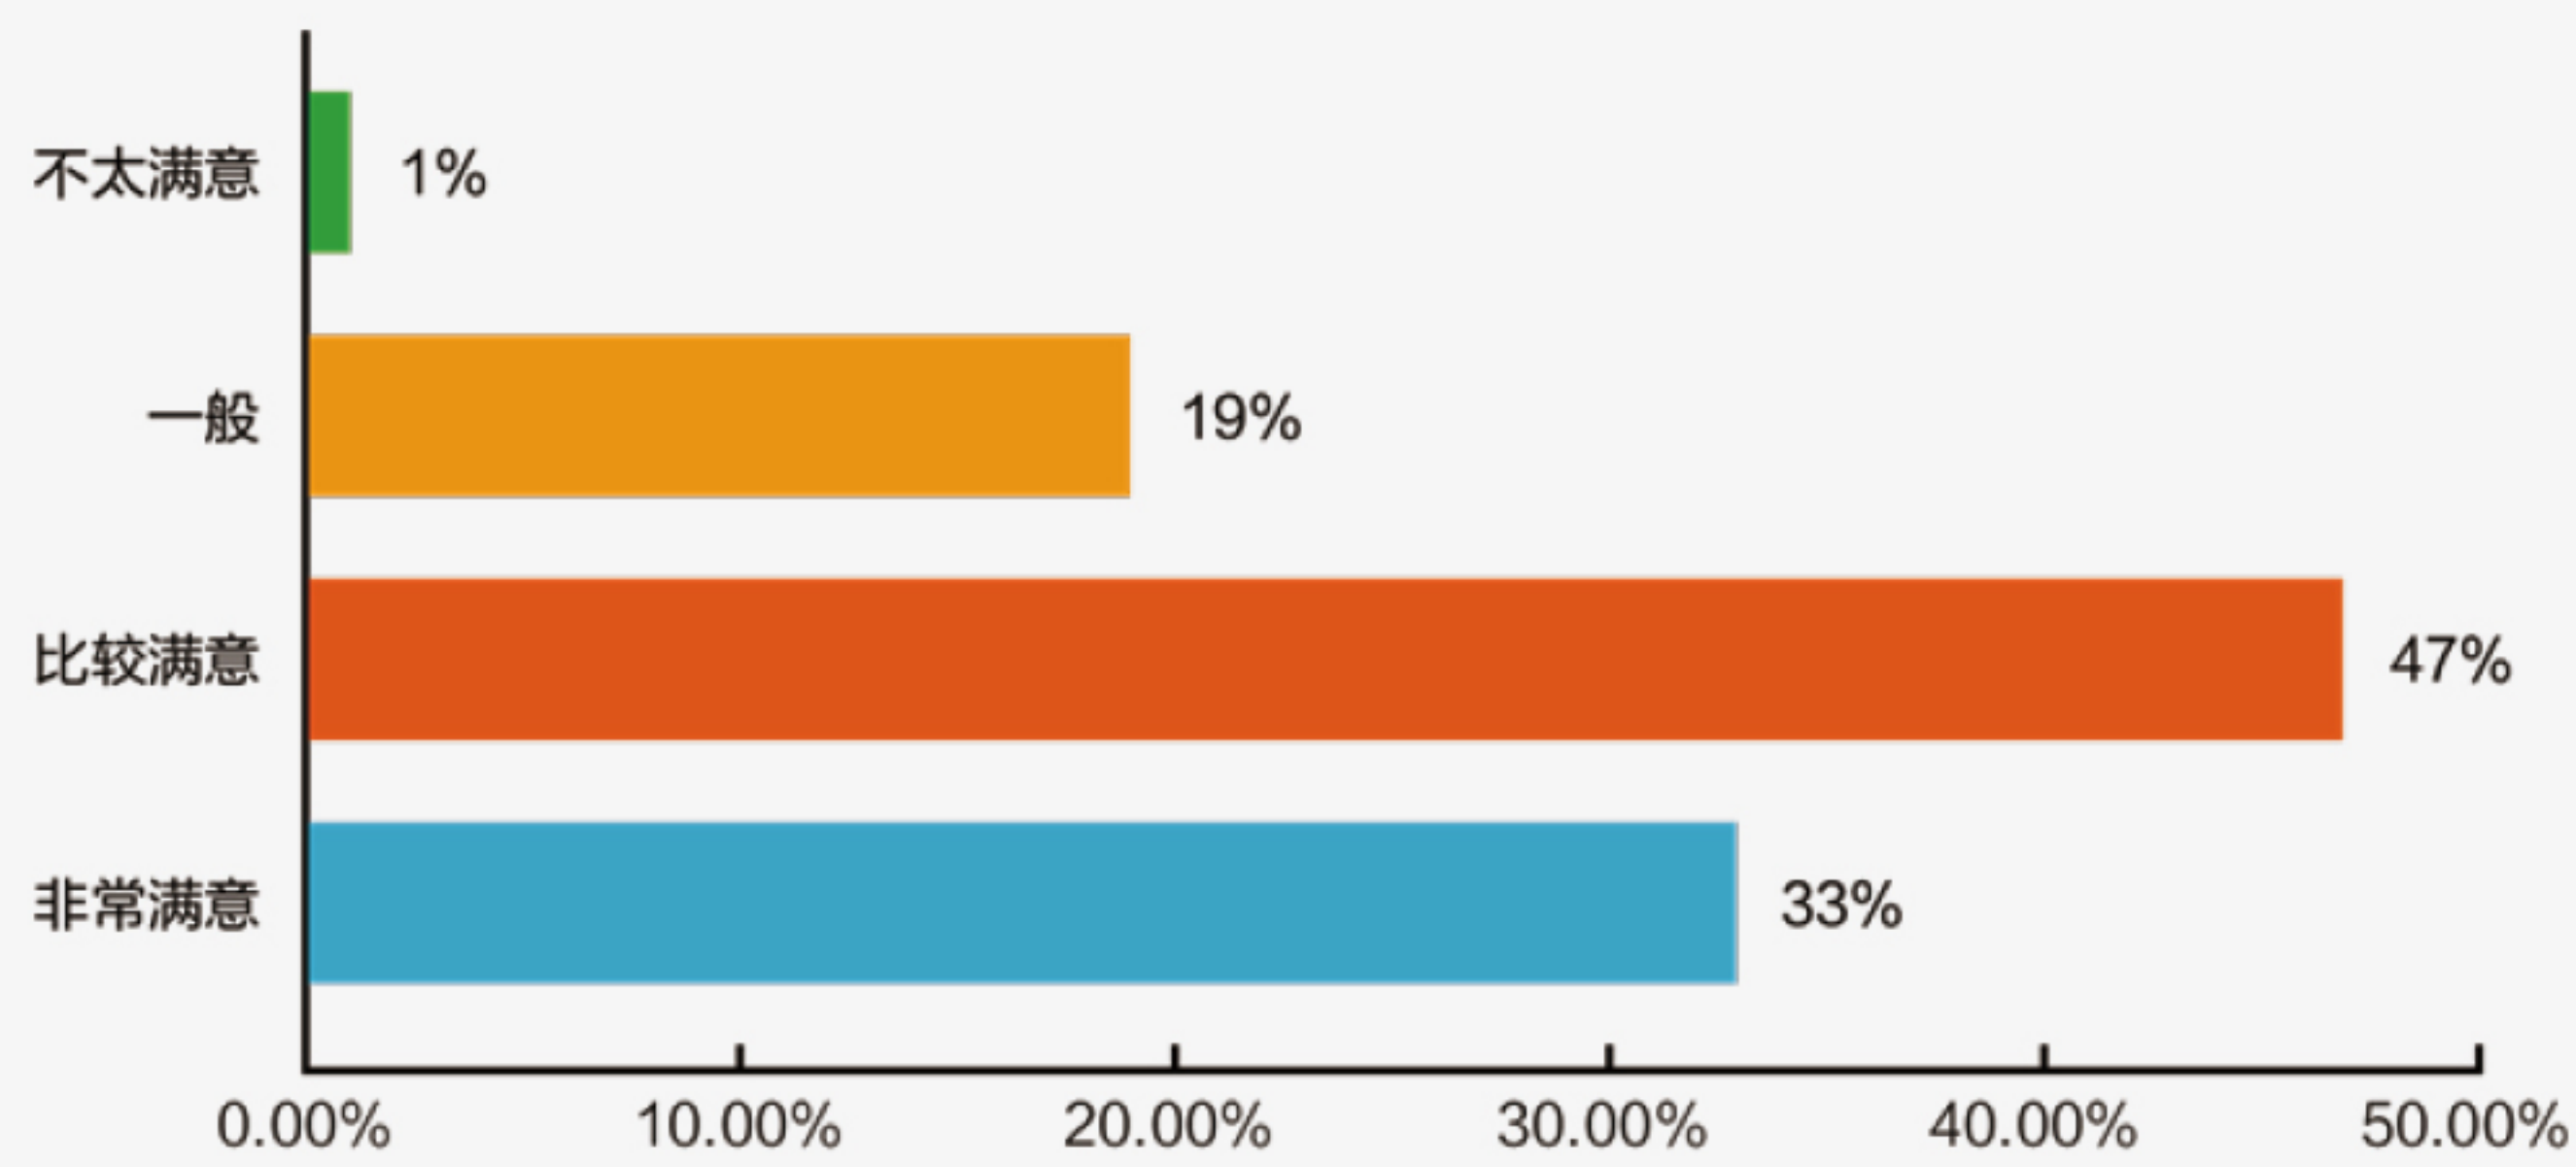

Based on the classic exhibition "Nonferrous China", China International Die Casting Industry Exhibition (Diecasting China) is a brand exhibition jointly created by China Foundry Association, Suzhou Die Casting Technology Association and Hong Kong Foundry Association, covering the entire industrial chain of diecasting and lightweight technologies.

Guided by the carbon goal, and with the rapid development of new energy vehicles, giga die-casting has ushered in the best era, lightweight casting has become the trend. In this context, the 17th edition of Diecasting China will be held in concurrent with METAL CHINA 2024, bringing together outstanding domestic and overseas diecasting and its upstream and downstream enterprises, showcasing a comprehensive of new products, technologies, and equipment which represent the trends of diecasting and lightweight production. The exhibition focuses on the forefront tech and hot topics, and leads innovation, aiming to assist in building a new pattern of high-quality development, and empower to integrate into the new era.
