展会概况 Exhibition Overview

全球领先的铸造行业盛会

THE WORLD LEADING FOUNDRY EVENT

中国国际铸造博览会（Metal China）始创于1987年，是中国唯一一个由国家级行业协会主办的铸造类展会，得到各大铸造企业及上下游行业的积极响应和大力支持，独具权威性、代表性、前瞻性和导向性，被誉为中国铸造行业发展的风向标。中国国际压铸工业展览会（Diecasting China）以中国铸造协会经典品牌展“国际有色及特种铸造展览会”为基础，汇聚海内外压铸及上下游杰出企业而成，全面展示压铸工艺、有色铸造及轻量化发展的新产品、新技术、新装备。

本届展会展出规模达12万平方米，汇集了全球26个国家和地区的1500余家企业参展，并辐射汽车、机床、工程机械等产业进行展示，有望达到促进铸造及上下游融合发展的最佳效果。展会从生产实际出发进行划馆、布展、分区，装备馆大型装备数量和规格远超往年，最大装备高达13米。墨西哥、波兰、德国、意大利、日本、韩国、土耳其等国际行业协会组成的国际展团为我们带来第一手的国际化资讯、方案和产品。展会呈现出分别以大交通铸件、精密铸造技术、压铸智能化、半固态工艺供应链、挤压工艺、低压工艺、先进材料、高端装备、环保设备为代表的12个特色展区和7个特色产业集群，带您领略细分领域的精品价值。4天的展期内，我们还组织了百余项新品发布、签约合作、论坛研讨等重磅活动，其中展商自主组织的占70%。希望大家能够依托此次展会的开放平台，建立联系、深度合作、碰撞思维、共进提升。

Founded in 1987, Metal China has developed into a world-renowned exhibition. Because of its professional and forward-looking, the exhibition has won the active participation of foundry enterprises and strong support from the upstream and downstream industry chain. Metal China & Diecasting China & Nonferrous is the witness and wind vane of the Chinese foundry industry and also the perfect platform for foundry and related enterprises to display and communicate.

The exhibition covers an area of 120,000sqm and gathers more than 1500 companies from 26 countries and regions around the world. It also radiates to industries such as automobiles, machine tools and construction machinery, aiming to achieve the best effect of promoting the integration of foundry and its upstream and downstream industries. The number and specifications of large-scale equipment far exceed previous years, with the maximum equipment display reaching up to 13 meters. The international pavilions from Mexico, Poland, Germany, Italy, Japan, South Korea, Türkiye, bring us first-hand information. The exhibition is also highlighted by 12 characteristic exhibition areas represented by large transportation castings, investment casting, giga die-casting, semi-solid process, extrusion, low-pressure, advanced materials, high-end and environmental protection equipment, and other 7 feature industry clusters. During the 4 exhibition days, there are more than 100 supporting activities such as seminars, new product release, cooperation signing ceremonies, among which 70% are independently organized by exhibitors. I hope all participants can rely on this platform to establish more connections, deepen cooperation, inspire ideas, and make greater achievements.

The Metal China 2024 show was a great event for the foundry sector and for the Spanish companies exhibiting in the show. We see an increase in the professionalism of the visitors and in the quality of the participants which showcased the great potential of the foundry sector in China. At Fundigex we recommend this event, especially to those companies that provide services, products and machinery for the foundry sector that want to make their way into the Chinese market. In a world like the one we find ourselves in, in which it is increasingly difficult to find a way forward, fairs continue to be a very useful tool and Metal China is a clear example in the case of the foundry sector.
